2019 (Version A) Wedding Photography Packages

TERMINOLOGY

- **Lead Photographer** – One of our FULL-time, featured photographers. Upon inquiry, we will let you know who is available for your date.
- **Assistant Photographer** – The assistant photographer is there to assist your lead photographer and travels with the lead photographer. Assistant will take some additional photos during the day, but should not be expected to be traveling separate from the lead photographer or shooting while the Lead photographer needs assistance. The assistant ensures that the lead photographer has all the assistance necessary to focus on taking great pictures and keeping your party on schedule.
- **2nd Photographer** – One of our part-time, professional shooters. This option gives you the flexibility of 2 photographers in 2 places. The second photographer is there for shooting, rather than assisting the lead photographer (which is the role of an Assistant Photographer)
- **Backup Equipment** – The day before your wedding is entirely devoted to thorough equipment check to ensure proper settings and working order. We bring top of the line back-up cameras, lenses, batteries, cards, and flash units to every wedding.
- **Guaranteed Turnaround** – We guarantee we will have completed post-production within 8 weeks from the wedding date. Client receives \$50 back for each week past the deadline. Final delivery (shipment or pickup) not part of the guaranteed turnaround.
- **Weekly Updates** – Each week we update a page on our website indicating the status and progress of all our wedding video and photo projects. You'll receive a link to this page after the wedding.
- **Personal Print Release** – Couples receive a signed, photographers' release granting personal use permission for unlimited printing.
- **Password Protected Online Gallery** – Gallery allows you to share all the photos from the day with friends and family. Gallery also acts as a shopping cart, allowing couples or their friends and family to order prints directly from the gallery.
- **Online Planning Forms** – After booking, client receives access to their online planning form where they enter information for locations, times, names, requests, etc.
- **Photographer's Choice Collection of Artistically Enhanced Images**– After editing your photos, your photographer will choose his/her collection of the best photos from the most important moments and details of your day (minimum of 24 photos). These photos will receive further editing to enhance the artistry or story of that particular image. Client receives both hi-res and web-res versions.
- **Online Video Slideshow & Blog Page** – Slideshow video with music and blog page featuring your Photographer's Choice Collection. Blog also allows for best wishes and congratulations to the couple from friends and family.
- **Smart Phone App** – Your very own smart phone app featuring your Photographer's Choice Collection so you can have always access to samples from your wedding day.
